HARDY EARLY FLOWERING CHRYSANTHEMUMS

Recommended For Outdoor Flowering

These are expected to mature their blooms early enough to avoid frost but in our locality require some protection as we often have damaging frost by the end of September. . . Blooming dates given are for outside growing. All varieties are equally good for growing under glass but mature somewhat later.

STANDARD HARDY EARLY POMPON VARIETIES

BARBARA CUMMING. This variety is similar to Yellow Normandie in color. It is more prolific and blooms earlier with a larger flower. Flowers from late August to October.

ELENA. Very attractive. Color is bright bronzy red. Petals slightly convexed. Very profuse flowering and dwarf growth, 20 inches in height. 2½ inches in diameter, maturing September 30th.

FLASH LIGHT. A bright glowing crimson, the first bright red to be included in the early hardy or garden section. Petals convex or roll outward. Matures September 30th, with flowers 3¼ inches in diameter.

SONOMA. A bronze with golden reverse and gold tipped petals. A profuse bloomer, coming into color October 1st. Flowers 2½ inches in diameter.

VIVID. A very striking and effective variety, the color of which very closely approaches that of the American Beauty Rose. Flowering October 1st, it is extremely vigorous and very free.

FRANCIS WHITTLESEY. Habit is stocky and dwarf averaging 18 inches in height. Color, rich bronze and garnet. Matures October 1st.

NORMANDIE. Delicate pink, changing to nearly white. Very early.

YELLOW NORMANDIE. A bronze yellow sport of Normandie, which is ample proof of its value. Very hardy.

NATOMA. A very fine bright pink. Decorative type and very productive. Blooms 2½ inches in diameter, matures October 10th. Height 2 feet.

KOREAN HYBRID CHRYSANTHEMUMS

These new creations developed from the extremely hardy Korean Chrysanthemums are considered more hardy and should be tried by those in particular who have difficulty in overwintering other types of Hardy Chrysanthemums. The colors are bright and unusual and come both in the single and double flowered type. A very strong wiry stem supports each flower. For garden, cut flower or pot plant work they are excellent.

SINGLE TYPE

APOLLO. A combination of bronze, red and gold.

MARS. Deep Amaranth-red.

DAZIRA. White with soft pink shading.

VENUS. Lilac-pink with rose lavender shading.

ORION. Brilliant canary-yellow.

NEW DOUBLE HARDY KOREANS

THE MOOR. Greatly admired by many who fancy this particular color, best described as amaranth-purple or port-wine-red. Flowers 3 inches across, double, produced freely and keep well when cut. In full flower in late September. Height 2 feet. Very hardy. \$1.25 per doz., \$7.00 per 100, \$65.00 per 1,000.

KING MIDAS. In profusion of flowers, there is no double hardy Chrysanthemum comparable to this lovely newcomer. Flowers average 4 inches in diameter are fully double and a charming shade of soft yellow with the faintest bronze shadings appearing occasionally. Growth very branchy, attaining an average height of 2½ ft. Very hardy. \$1.25 per doz., \$7.00 per 100, \$65.00 per 1,000.

EMBER. This is a remarkably hardy and rugged Chrysanthemum which apparently withstands all weather conditions. In color, a brilliant glowing bronze that stands out conspicuously in comparison with any others in this color. It is a combination of coral and orange shades that cannot be described accurately. 2½ inches in diameter. Flowering in mid October. Height 2½ feet. \$1.25 per doz., \$7.00 per 100, \$65.00 per 1,000.

NEW VARIETIES GROWN ON TRIAL

We will grow on trial many varieties of new and recent introductions to determine their merits, as many new varieties often do not make the grade. We cordially invite those interested in better Chrysanthemums to see these varieties growing at our Greenhouses during their respective seasons.
